# RPET

The fabric used in the manufacturing process of these products is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos productos está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

## ANTIBACTERIAL

Antibacterial material specially processed to inhibit and prevent bacterial growth, due to the incorporation of permanent static microbial agents, which are highly effective in the control against bacterial contamination.

Material antibacteriano, especialmente procesado para inhibir y prevenir las cargas bacterianas, gracias a la incorporación de agentes microbianos permanentes estáticos, con alta efectividad contra la contaminación bacteriana.

# WOOD

Did you know these games improve your skills and enhance brainwork? Learning to overcome challenges sharpens intelligence. Moreover, a positive correlation between these kind of games and the IQ levels of the people who play them regularly has been observed.

¿Sabías que estos juegos mejoran las habilidades de pensamiento y perfeccionan la capacidad de razonamiento?.

Aprender a superar los desafíos agudiza la inteligencia, además se ha demostrado una relación positiva entre los juegos y los niveles de coeficiente intelectual de las personas que se entretienen con ellos de forma regular.

# RPET

**i** The fabric used in the manufacturing process of this product is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de este producto está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

# RPET

The fabric used in the manufacturing process of this jacket is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de esta chaqueta está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.

The fabric used in the manufacturing process of these products is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.

El material de estos productos está fabricado con plástico reciclado (RPET), que, además de ayudar en la disminución de residuos plásticos en el planeta, utiliza menos energía en el proceso de fabricación, haciendo que sea mucho menos dañino para el medio ambiente.
